The 2020 Graduation Survey: Method and Process

The **Graduation Survey** is administered by the University Career Center & The President's Promise (the Center). The survey captures career-related outcomes of bachelor's degree level graduates, as well as data on participation in co-curricular and extracurricular activities during the graduate's tenure at the University of Maryland, College Park. This year's report captures outcomes of bachelor's level graduates within the 2019-2020 academic year including August 2019, December 2019 and May 2020 graduations.

Method

The 2020 Graduation Survey followed the same process and incorporated the same survey items as the 2014-2019 surveys, which were based on standards established by the National Association of Colleges and Employers (NACE). Survey data collection was conducted electronically through an instrument created in Qualtrics. In addition to responses on the survey, data were also collected via other channels including social media profiles (primarily LinkedIn), information from college/department staff, reports from employers and data from the National Student Clearinghouse.

Survey Pool

Initial survey invitations were sent prior to each graduation to a list of students who had applied for graduation in that semester (list obtained from the University of Maryland Data Warehouse). The Office of the Registrar completed degree clearances and conferred degrees approximately one month after graduation, at which point the survey pool was limited to only those students that had in fact earned a degree in the 2019-2020 academic year.

Time Frame

Based on NACE standards, data collection is normally conducted within a window of time starting with each graduation and ending six months after the May graduation. Due to the complications and disruptions caused by COVID-19, data gathering was extended this year an additional two months past the standard protocol, up until March 2021. Collection efforts were rolled out in three phases:

Phase One

Initial emails were sent to students intending to graduate approximately three weeks before commencement. Graduates continued to receive weekly reminders until a few weeks after graduation. After that point, additional reminders were sent on a bi-weekly basis.

Phase Two

At the three-month post-graduation mark, requests to complete the survey were again emailed to graduates that had not yet responded. Students that responded in PHASE ONE and reported an *unplaced* status were resurveyed and asked to update their outcome.

Phase Three

Toward the end of the survey window (mid-November through December) the Center shared with colleges/departments lists of their graduates that had not yet completed the survey or had reported an *unplaced* status. Colleges/departments were asked to supply any additional student outcome information of which they had knowledge (e.g., a department administrative assistant that received a personal email from a graduate related to a recently landed job). Additional outcome data were sourced from searches on LinkedIn and other social media sites, conducted either by the colleges/departments or by Center staff. The Center also obtained information about enrollment in graduate-level programs

from the National Student Clearinghouse via assistance from the Office of Institutional Research, Planning and Assessment. Data received from channels other than the survey were coded to identify the source and help ensure that information was legitimate and verifiable.

Definitions

While graduates could report one of nine statuses, for the purpose of this report outcomes are generally divided into the following categories:

Placed includes **employment** (either full or part-time), **continuing education** (of any type – graduate school, second bachelor’s degree, certificate programs, etc.), **starting a business/organization**, participating in a **service or volunteer program** (such as the Peace Corps) or **military service**.

Unplaced includes graduates that reported **actively seeking employment** as well as graduates that reported an **intention to pursue a graduate degree, but had not yet been accepted or admitted**.

Unresolved includes students that responded to the survey during *Phase One* and reported an Unplaced status, but for whom no additional information could be collected in subsequent phases—neither through eventual response to the survey, lookups on social media sites, reports from employers, information from schools/colleges, nor the National Student Clearinghouse. In other words, the only information available was the intent of the student to commence a job search or graduate school application process, but not about the conclusion; hence the term, “unresolved.”

Not Seeking includes students that reported they were not seeking employment or continuing education. These students were omitted from the calculation of placement rates.

Other Clarifications

Some assumptions were inherent in interpreting data collected from sources other than the official *Graduation Survey* instrument.

☺ **Employment**

For outcome data collected from social media sites, graduate profiles indicating post-graduate employment were considered to be employed full-time unless information about part-time status was explicitly provided or available.

☺ **College and Department Surveys**

The Center received data from some colleges/departments that conducted internal surveys containing career outcome questions. Of note, in some cases these surveys were conducted significantly prior to the Graduation Survey data collection timeframe initiated at graduation. When appropriate, data were integrated into the official reporting database during *Phase Three* data collection efforts. However, responders to pre-graduation college/department surveys that reported an unplaced status were still classified as non-responders unless they also responded to the official Graduation Survey.

☺ **Volunteer/Service**

Students that reported a status of *Employed* but indicated their employer as Teach for America, Peace Corps, AmeriCorps, City Year or one of many well-known volunteer/service programs were re-coded in the *Volunteer/Service* category for purposes of this report.

☺ **Employment Vs. Continuing Education**

Some *Phase Three* data collection efforts overlapped each other. There were instances where report of a graduate's employment was obtained from one source, but simultaneously a report of continuing education was obtained from the National Student Clearinghouse. Reports regarding employment were given precedence over continuing education information received from the Clearinghouse, with the assumption that the graduate would be attending the continuing education program part-time.

☺ **Clearinghouse vs. Other Reports**

In the cases where report of a graduate pursuing continuing education was obtained from both the National Student Clearinghouse and another source, but details about that enrollment were in conflict (program, school, etc.), the Clearinghouse data were considered the most accurate.

☺ **Social Media Profiles**

When conducting research on graduates via social media sites, staff were instructed to identify how recently the profile appeared to have been updated.

- Students were recorded as *Unplaced* if their profile summary or headline referenced their recent graduation and that they were actively seeking employment.
- For *Employment*, any work-related position reported in the profile with a start date **after** the individual's graduation date was considered post-graduate employment.
- If a position listed on the profile indicated a start date prior to graduation but contained clear evidence that the profile had been updated since graduation, the position was recorded as post-graduate employment. If there was no evidence that the profile had been updated, the employment was not recorded.
- Staff were asked to record URLs of student profiles for later review and verification.

Tabulations

Each graduate was counted only once in the University-wide report section. Graduates with double majors and/or double degrees were counted in their respective college reports; however, if the second degree occurred within the same college, the graduate was only counted once in the college-specific report. Graduates that participated in the Honors College or College Park Scholars programs were included in those reports in addition to being included in specific college report(s) as appropriate. In addition, although Letters & Sciences students ultimately select majors and are counted in the various college reports, a separate report was generated to include graduates who at any point in their University of Maryland tenure were Letters & Sciences students.

In some cases percentages do not sum to 100%. For questions where graduates could "check all that apply," denominators are based on total number of graduates completing that question, not on total number of checks reported for all categories in that question. A student checking three (3) response categories would count only once toward the denominator, not three times. For other questions, the difference between the sum and 100% should be small (+/- 1%) and is attributable to rounding error. All rounding was done on final calculations/results. Most values in the report were calculated via Microsoft Excel and full decimal places were retained in intermediate steps.

The order of college reports that follows is based on how the colleges appear in the University of Maryland Data Warehouse reports.

University of Maryland

2020 University-Wide Graduate Survey Report

As of January 2020, data from 5,896 of 7,780 graduating students receiving a bachelor's degree from the University of Maryland between August 2019 and May 2020 had been collected, via the survey or other means, resulting in a knowledge rate of 76%. Most graduates were entering the workforce.

Survey Response Rate

METHODS OF EMPLOYMENT

Items entered for “Other” included applying online directly with employer/employee websites; social media (e.g. LinkedIn, Twitter); employer information meetings, dinners etc.; college ListSrvs/newsletters; alumni referrals; college/clubs facilitated activities and events; and internships.

TOP EMPLOYERS

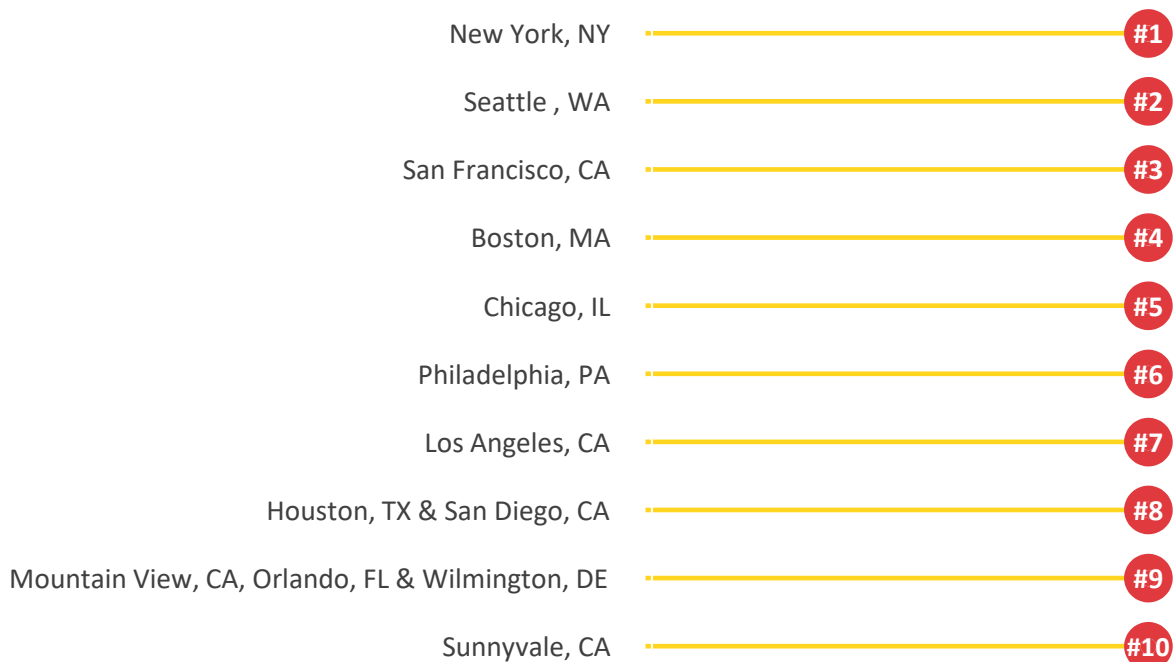

EMPLOYMENT LOCATIONS

Employment locations were identified for 3,757 graduates. Of the total, 74% (2791) reported employment in the region: 47% in Maryland (1760), followed by 15% in Virginia (561), and 13% in Washington, DC (470).

TOP 10 CITIES OUTSIDE OF MD/DC/VA

STARTING A BUSINESS/ORGANIZATION

Sixty-two (62) graduates started their own business or organization based on surveys and social media searches. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

Beef Decks Professional Fingerboards	<i>A company that creates and sells fingerboards (miniature skateboards)</i>
Burnette Family Renovations	<i>Provide outdoor agricultural advice, lawn services and maintenance in Southern Maryland</i>
Casey Allen Photo & Video	<i>Photography and videography services that highlights weddings, headshots, pets, concept photography, and brand promotions</i>
Dreyfus Construction LLC	<i>Handyman and home and improvement company in Maryland, Virginia, and Pennsylvania</i>
Eden Hambric	<i>Photography services for individuals and corporations</i>
Emily Moy Photography	<i>Photography services highlighting portraiture, self-portraits, fine arts, and weddings</i>
Mindhive	<i>Work life, health & fitness, and career performance coaching: health and fitness blogs, supplements promotions, biohacking gear, and third-party book sales</i>
My Write Hand Woman	<i>Freelance copywriting focused on female entrepreneurs, providing marketing and advertising services for business owners</i>
Run. Eat. Lift. LLC	<i>Personal coach and trainer for health and fitness specializing in pain relief</i>
Sierra's Creation	<i>A visual artist who creates a variety of designs, including different paintings, drawings, photography, sculptures, and prints</i>
SJTech Solutions	<i>Software systems design organization that offers services to government and medium to large corporations in India and US</i>
Suze Creedon Photography	<i>Photography services for occasions, portraits, dance, and music, as well as brands and social media</i>
Tasty Grill to Go	<i>A food services company that provides both food truck services and catering services, specializing in Mediterranean/Middle Eastern cuisine</i>
The Motion Project	<i>A disability advocacy organization in Sri Lanka helping children with physical disabilities stay in school and succeed in life</i>
Wanderlust Wardrobe	<i>A fashion consultancy that assists individuals seeking clothes that align with their personal style; third-party vendor of international clothing</i>

SERVICE/VOLUNTEER PROGRAMS

Forty-seven (47) graduates reported plans to participate in a service or volunteer program after graduation. Programs reported include:

- ☑ **AmeriCorps (9)**
- ☑ **Teach For America (4)**
- ☑ **Peace Corps (4)**
- ☑ **The Literacy Lab (2)**
- ☑ **City Year (2)**

CONTINUING EDUCATION

One thousand and eleven (1,011) graduates reported that they would be continuing their education as their main pursuit after graduation. The most popular areas of study include law, medicine, engineering, accounting, computer science, public health, public policy, social work, finance, physical therapy, speech/language pathology, education and finance.

OUT OF CLASSROOM EXPERIENCE

Based on 3,526 survey responses.*

**Graduates could select as many items as applied, unless they selected "none of the above."*

Those respondents selecting "Other" most commonly wrote in items relating to "Greek" life (fraternity/sorority), teaching assistant or resident assistantships, fellowships, internships, participating in clubs or in honor societies, and sports.

Results in this section are based on 3,554 responses to the internship participation section of the survey. Eighty-two percent (82%) of respondents (2,917 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

NUMBER OF INTERNSHIPS

Fifty-seven percent (57%) of respondents who participated in internships reported having had at least one **paid** internship. Thirty-one percent (31%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 2,917 graduates who reported internships, a total of **6,313 internship experiences** were reported. However, results in this section are based on 4,523 internship experiences analyzed for 2,251 respondents, for which additional details were provided.

Of those internship experiences reported, 26% were academic credit-earning activities. Additionally, 63% were paid, while 34% were unpaid, and 2% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 1,657 experiences that paid an hourly wage, the average reported income was \$18.30 per hour and the median reported income was \$16.00 per hour.

Seventy-two percent (72%) of the students who reported internship results ultimately chose not to pursue full-time positions with one or more of their host employers. However, of those that did seek to convert an internship into a full-time position, 84% received an offer (irrespective of whether they accepted the offer). The chart below shows the breakdown of all reported internship outcomes.

EMPLOYMENT LOCATIONS

Employment locations were identified for 358 graduates. Of those, 76% reported employment in the region: 53% in Maryland (188), followed by 17% in Washington, DC (60), and 7% in Virginia (25).

STARTING A BUSINESS/ORGANIZATION

Thirteen (13) graduates reported that they started their own business or organization. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

Eden Hambric	<i>Photography services for individuals and corporations</i>
Sierra's Creations	<i>A visual artist who creates a variety of designs, including different paintings, drawings, photography, sculptures, and prints</i>
Suze Creedon Photography	<i>Photography services for occasions, portraits, dance, and music, as well as brands and social media</i>

SERVICE/VOLUNTEER PROGRAMS

Nine (9) graduates reported plans to participate in a service or volunteer program after graduation. Programs reported include:

- ✓ **AmeriCorps (1)**
- ✓ **Peace Corps (2)**
- ✓ **Teach For America (1)**
- ✓ **City Year (1)**

CONTINUING EDUCATION

Ninety-seven (97) graduates reported that they would be continuing their education as their main pursuit after graduation. The most popular areas of study include law, medicine, engineering, speech/language pathology, education and finance.

OUT OF CLASSROOM EXPERIENCE

Based on 419 survey responses.*

*Graduates could select as many items as applied, unless they selected "none of the above."

Those respondents selecting "Other" most commonly wrote in items relating to "Greek" life (fraternity/sorority), being a Teaching Assistant, participating in fellowships, and club activities.

INTERNSHIP PARTICIPATION

Results in this section are based on 413 responses to the internship participation section of the survey.

Seventy-two percent (72%) of respondents (297 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Fifty-seven percent (57%) of respondents who participated in internships reported having had at least one **paid** internship. Fifty-three percent (53%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 297 graduates who reported internships, a total of **645 internship experiences** were reported. However, results in this section are based on 554 internship experiences for which additional details were provided.

Of those internship experiences reported, 38% were academic credit-earning activities.

Additionally, 48% were paid, while 49% were unpaid, and 2% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 165 experiences that paid an hourly wage, the average reported income was \$15.30 per hour and the median reported income was \$15.00 per hour.

A respondent selecting "Other" wrote in Maryland Images: Campus Tour Guide.

INTERNSHIP PARTICIPATION

Results in this section are based on 66 responses to the internship participation section of the survey.

Eighty-nine percent (89%) of respondents (59 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Twelve percent (12%) of respondents who participated in internships reported having had at least one **paid** internship. Eighty-eight percent (88%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 59 graduates who reported internships, a total of **182 internship experiences** were reported. However, results in this section are based on 120 internship experiences for which additional details were provided.

Of those internship experiences reported, 43% were academic credit-earning activities.

Additionally, 6% were paid, while 93% were unpaid, and 0% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 2 experiences that paid an hourly wage, the average reported income was \$15.00 per hour and the median reported income was \$15.00 per hour.

INTERNSHIP PARTICIPATION

Results in this section are based on 38 responses to the internship participation section of the survey.

Eighty percent (80%) of respondents (30 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Eighty percent (80%) of respondents who participated in internships reported having had at least one **paid** internship. Forty-two percent (16%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 30 graduates who reported internships, a total of **55 internship experiences** were reported.

Of those internship experiences reported, 15% were academic credit-earning activities.

Additionally, 87% were paid, while 13% were unpaid, and 0% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 41 experiences that paid an hourly wage, the average reported income was \$16.50 per hour and the median reported income was \$15.00 per hour.

OUT OF CLASSROOM EXPERIENCE

Based on 400 survey responses.*

*Graduates could select as many items as applied, unless they selected “none of the above.”

Those respondents selecting “Other” most commonly wrote in items relating to a Teaching Assistant, participating in honor societies, and participating in internships.

INTERNSHIP PARTICIPATION

Results in this section are based on 402 responses to the internship participation section of the survey.

Ninety-one percent (91%) of respondents (364 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Fifty-six percent (56%) of respondents who participated in internships reported having had at least one **paid** internship. Thirty-eight percent (38%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 364 graduates who reported internships, a total of **889 internship experiences** were reported. However, results in this section are based on 642 internship experiences for which additional details were provided.

Of those internship experiences reported, 24% were academic credit-earning activities.

Additionally, 61% were paid, while 36% were unpaid, and 3% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 245 experiences that paid an hourly wage, the average reported income was \$17.78 per hour and the median reported income was \$15.00 per hour.

GEOGRAPHIC DISTRIBUTION

Employment locations were identified for 482 graduates. Of the total, 67% reported employment in the region: 41% in Maryland (196), followed by 16% in Virginia (76), and 10% in Washington, DC (49).

STARTING A BUSINESS/ORGANIZATION

Four (4) graduates reported that they started their own business or organization. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

Emily Moy Photography	<i>Photography services highlighting portraiture, self-portraits, fine arts, and weddings</i>
My Write Hand Woman	<i>Freelance copywriting focused on female entrepreneurs, providing marketing and advertising services for business owners</i>
SJTech Solutions	<i>Software systems design organization that offers services to government and medium to large corporations in India and US</i>
The Motion Project	<i>A disability advocacy organization in Sri Lanka helping children with physical disabilities stay in school and succeed in life</i>
Wanderlust Wardrobe	<i>A fashion consultancy that assists individuals seeking clothes that align with their personal style; third-party vendor of international clothing</i>

SERVICE/VOLUNTEER PROGRAMS

Eight (8) graduates reported plans to participate in a service or volunteer program after graduation. Programs reported include:

- ✓ **AmeriCorps (2)**
- ✓ **Branchville Volunteer Fire Co. and Rescue Squad Inc. (1)**
- ✓ **Teaching Assistant Program in France (1)**
- ✓ **City Year (1)**

CONTINUING EDUCATION

One hundred and seventy-nine (179) graduates reported that they would be continuing their education as their main pursuit after graduation. The most popular areas of study include medicine, engineering, computer science, law, physics, public policy, and education.

TYPE OF DEGREE/PROGRAM	#	%
Associate's	0	0%
Second Bachelor's	1	0.6%

OUT OF CLASSROOM EXPERIENCE

Based on 532 survey responses.*

*Graduates could select as many items as applied, unless they selected “none of the above.”

Those respondents selecting “Other” most commonly wrote in items relating to “Greek” life (fraternity/sorority), being a Teaching Assistant, participating in internships, and clubs and intramural sports.

INTERNSHIP PARTICIPATION

Results in this section are based on 533 responses to the internship participation section of the survey.

Ninety-one percent (91%) of respondents (486 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Sixty-nine percent (69%) of respondents who participated in internships reported having had at least one **paid** internship. Twenty-two percent (22%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 486 graduates who reported internships, a total of **1,209 internship experiences** were reported. However, results in this section are based on 918 internship experiences for which additional details were provided.

Of those internship experiences reported, 15% were academic credit-earning activities.

Additionally, 74% were paid, while 24% were unpaid, and 2% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 419 experiences that paid an hourly wage, the average reported income was \$20.23 per hour and the median reported income was \$20.00 per hour.

Letters and Sciences

Survey Response Rate
47%

Knowledge Rate
74%

As of January 2021, data from 1,773 of 2,411 graduating students receiving a bachelor's degree from the University of Maryland between August 2019 and May 2020 had been collected, via the survey or other means, resulting in a knowledge rate of 74%. Most graduates were entering the workforce.

2020 GRADUATE OUTCOMES	#	%
Employed FT	1,219	69%
Employed PT	60	3%
Continuing Education	258	15%
Volunteering or in service program	13	1%

OUT OF CLASSROOM EXPERIENCE

Based on 1,025 survey responses.*

*Graduates could select as many items as applied, unless they selected “none of the above.”

Those respondents selecting “Other” most commonly wrote in items relating to “Greek” life (fraternity/sorority), being a Teaching Assistant, NAVY ROTC, participating in clubs and sports, and participating in internships.

INTERNSHIP PARTICIPATION

Results in this section are based on 1,035 responses to the internship participation section of the survey.

Seventy-nine percent (79%) of respondents (818 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Fifty-eight percent (58%) of respondents who participated in internships reported having had at least one **paid** internship. Thirty-two percent (32%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 818 graduates who reported internships, a total of **1,692 internship experiences** were reported. However, results in this section are based on 1,228 internship experiences for which additional details were provided.

Of those internship experiences reported, 26% were academic credit-earning activities.

Additionally, 63% were paid, while 34% were unpaid, and 2% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 538 experiences that paid an hourly wage, the average reported income was \$16.87 per hour and the median reported income was \$15.00 per hour.

APPENDIX I

GRADUATION SURVEY QUESTIONNAIRE 2019-2020 VERSION

The University Career Center & The President's Promise will use Qualtrics and load information about graduating students as a panel for the survey. University identification numbers will link responses to records.

Post-Graduation Information:

1. Which of the following best describes your status AFTER graduation?

(Choose the one option that BEST describes your status)

- a) Employed full-time (on average 30 hours or more per week) ([GO TO EMPLOYMENT](#))
- b) Employed part-time (on average less than 30 hours per week) ([GO TO EMPLOYMENT](#))
- c) Starting my own business/organization ([GO TO ENTREPRENEUR](#))
- d) Participating in a volunteer or service program (e.g., Peace Corps) ([GO TO VOLUNTEER](#))
- e) Serving in the U.S. Armed Forces (any branch) ([GO TO MILITARY](#))
- f) Accepted into a program of continuing education (e.g., Graduate School) ([GO TO STUDY](#))
- g) Actively seeking employment or starting job search ([GO TO EXPERIENCES](#))
- h) Applied to graduate school/continuing education but not yet accepted ([GO TO EXPERIENCES](#))
- i) Not seeking employment or continuing education at this time ([GO TO NOT SEEKING](#))

IF PLACED (a, b, c, d, e or f from above):

When did you accept/confirm your post-graduation plans?

- a) Before graduation
- b) Within one month after graduation
- c) Within three months after graduation
- d) Later than three months after graduation

2. What is your post-graduation email address? <<EMAIL INPUT>>

Employment After Graduation:

3. Which of the following categories BEST describes your employment:

| i) Student teaching | s) None of the above |
| j) Clinical or hospital rotation | |

If respondent selects options (a), (b), (c), or (d) in question 31, display question 33:

33. How many hours, on average, did you work per week? <<PICKLIST – HOUR RANGES>>

If respondent selects option (p) “None of the above” in question 32, display question 34:

34. What prevented you from participating in any of those experiences while enrolled at UMD?

(Choose all that apply)

- a) Was not interested
- b) Academic workload
- c) Financial constraints
- d) Not sure how/where to find information
- e) Did not have reliable transportation
- f) Commuter/distance to campus
- g) Family responsibilities
- h) Other: <<WRITE IN>>

Internships while at UMD

This section is displayed if the respondent indicates a number of internships in Question 31 that is greater than zero. The section (questions 35 through 41) is repeated for each internship up to a total of 10.

You indicated that you participated in [fill # internships] internship(s) while at UMD.

We will ask questions about each internship in turn.

Please answer the questions on this page about your [fill ordinal number] internship.

35. For your [fill ordinal number] internship, what was the name of the business or organization you worked for? <<TEXT BOX>>

36. What was your title or job function? <<TEXT BOX>>

37. Was your [fill ordinal number] internship paid?

NOTE: Other refers to internships that did not provide a salary, hourly wage, or monetary stipend, but did provide benefits such as housing, travel, etc.

- a) yes
- b) no
- c) other

If respondent selects “yes” in question 37, display question 38:

38. How much were you paid for this internship? (please indicate hourly wage, salary, or stipend amount) <<TEXT BOX>>

39. Did you receive academic credit for this internship? <<YES/NO>>

40. In what semester did you participate in this internship? <<PICKLIST – SEMESTER AND YEAR>>

(if the internship continued throughout more than one semester, list the last semester you participated in this internship)

41. As a result of THIS internship:

- a) I accepted full-time employment with this organization.
- b) I received an offer for full-time employment with this organization but did not accept it.
- c) I applied for full-time employment with this organization but did not receive an offer.
- d) I did not apply for full-time employment with this organization.
